

Authorization Manager

Identify. Submit. Retrieve.

"I can't thank you and your team enough for the support, dedication, and follow-through each one of you take! This truly says a lot about AccuReg as well as their vision and values."

Jeff Darling, Director of Admissions
Oneida Healthcare

Automate prior authorizations with our end-to-end, tech-enabled services for all payers and all service lines.

The days of resource-draining, inefficient prior authorization processes are gone. With AccuReg Authorization Manager, your staff can focus on serving patients and stop spending hours waiting on payer responses and manually searching for the documentation required to avoid denied claims.

Our complete all-payer, all-service solution will identify when authorization is needed, facilitate submission and retrieve payer authorization response—so your net patient revenue is not lost to bad debt, costly denials and account collections.

Avoid authorization denials and appeals. Expedite patient care. Increase net revenue.

AccuReg Authorization Manager combines technology and services to solve the authorization challenges hospitals face. Powered by the AccuReg market-leading intelligent rules engine, our technology adapts to ever-changing payer requirements to:

- Detect authorization and pre-certification requirements, specific to all payers, services and procedures
- Identify payer and need using intelligent procedure-level benefit validation
- Facilitate submission and complete retrieval using automation and tech-enabled services

AccuReg offers full-service, tech-enabled services from our U.S.-based service center. Our authorization professionals work with AccuReg Authorization Manager software, the payers and your team, in real time, to complete the authorization process. Whether you're looking for software, a technology-enabled service or fully outsourced authorization solution, AccuReg has a model to fit your prior authorization needs that will increase your net revenue.

Provide the care your patients need—prevent the authorization denials you don't.
Reduce the burden on your patient access staff by automating prior authorizations.
