Patient Tracker

Expedite Wait Times. Improve Registration Accuracy. Increase Satisfaction.

"

"Before implementing Patient Tracker, our check in process was manual. Now, it's electronic, and we have visibility into check in, wait and registration times. Everyone sees, everyone knows, everyone understands."

Sue Plank, Director of Patient Access
Goshen Health

Features

- Detailed Patient Wait Time Tracking
- Supervisor Alerts when Thresholds are Exceeded
- Manual Patient Check-In within AccuReg Module
- Hospital Service Charges Summary Visible to Staff
- Patient Estimates of Out-of-Pocket Costs Visible to Staff

Outcomes

- Increase Patient Satisfaction with a Fast, Secure Experience
- Expedite Patient Registrations
- Improve Registration Accuracy
- Reduce Registration-Related Denials
- Identify Registration Process Improvements
- Improve Patient Access Department Efficiency
- Review Collection Information and Create Patient Estimates

Turn arrival into a fast, secure and satisfying patient experience.

Help your patients fly through the registration process. Enable a fast, secure and positive patient experience with Patient Arrival Tracker from AccuReg. Powered by AccuReg's intelligent rules engine for Registration Quality Assurance, Patient Arrival Tracker documents wait times and alerts supervisors if pre-determined thresholds are exceeded.

Automate the patient registration process for happier patients and fewer denials.

Using our patient check-in system, your hospital can monitor patient wait times by location and department within your facility.

By automating the registration process using AccuReg Patient Tracker, you expedite registrations and enable patients to self check-in using your hospital's stand-alone PC or iPad/Tablet patient kiosks. Make it faster for patients to check-in and improve registration accuracy while helping to prevent payer denials.

Real-time insights via dashboards that automatically calculate performance against the industry standard NAHAM AccessKeys®.

Register your patients faster and reduce patient wait times with AccuReg Patient Tracker.
