

Identify. Submit. Retrieve.

Automate prior authorizations with our end-to-end solution for all payers and all service lines.

The days of resource-draining, inefficient prior authorization processes are gone. With EngageCare Authorization Manager, your staff can focus on serving patients and stop spending hours waiting on payer responses and manually searching for the documentation required to avoid denied claims.

Our complete all-payer, all-service solution will identify when authorization is needed, facilitate submission and retrieve payer authorization response—so your net patient revenue is not lost to bad debt, costly denials and account collections.

Avoid authorization denials and appeals. Expedite patient care. Increase net revenue.

Authorization Manager solves the authorization challenges hospitals face. Powered by the AccuReg market-leading intelligent rules engine, our technology adapts to ever-changing payer requirements to:

- Maintain determination rules engine
- Detect authorization and pre-certification requirements, specific to all payers, services and procedures
- Identify payer and need using intelligent procedure-level benefit validation
- Facilitate submission and complete retrieval using automation and tech-enabled services

Whether you're looking for software or a technology-enabled service, AccuReg has a model to fit your prior authorization needs that will increase your net revenue.

"I can't thank you and your team enough for the support, dedication, and follow-through each one of you take! This truly says a lot about AccuReg as well as their vision and values."

JEFF DARLING
Director of Admissions, Oneida Healthcare

Capabilities
